

## Key Findings 1 of 5

## Key Findings 2 of 5

99 parents completed the NFER Parent survey at your school.

For every question in the survey we have calculated whether there is a significant difference in the rating applied to each statement by your parents compared to all parents in the sample weighted to be nationally representative (All Schools).

The three areas where your school is most successful and the three areas where your school is least successful compared to other schools which took part in the parent survey are shown below.

### Areas of strength in your school are:

The school provides a range of out-of-hours clubs and activities

The school governors do a good job

I am satisfied with the school's out of school hours clubs

### Areas for potential development in your school are:

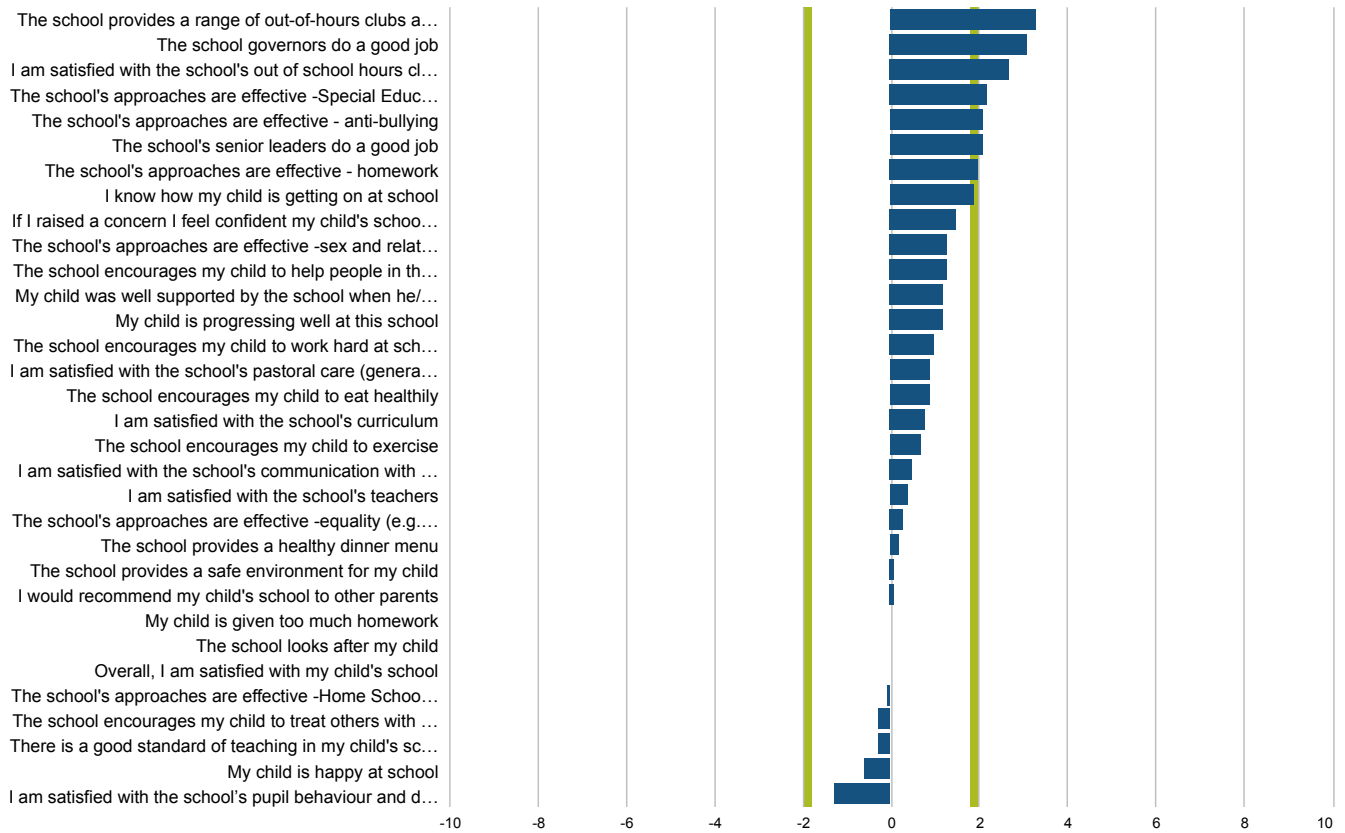

I am satisfied with the school's pupil behaviour and discipline

My child is happy at school

There is a good standard of teaching in my child's school

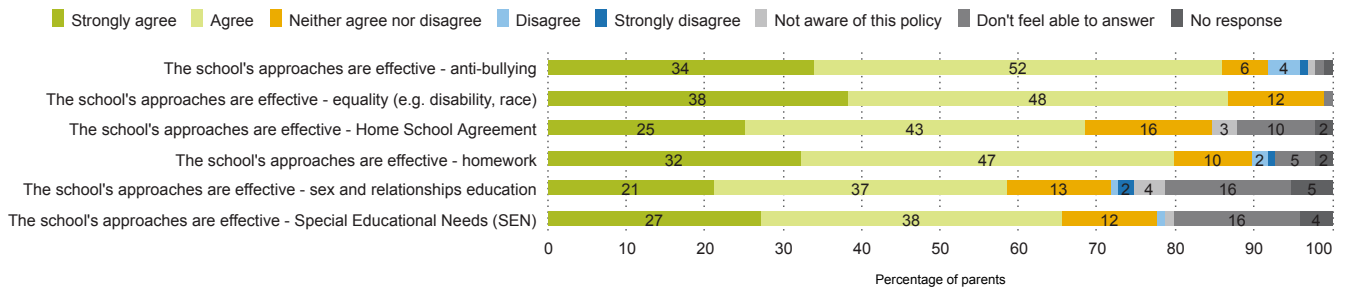

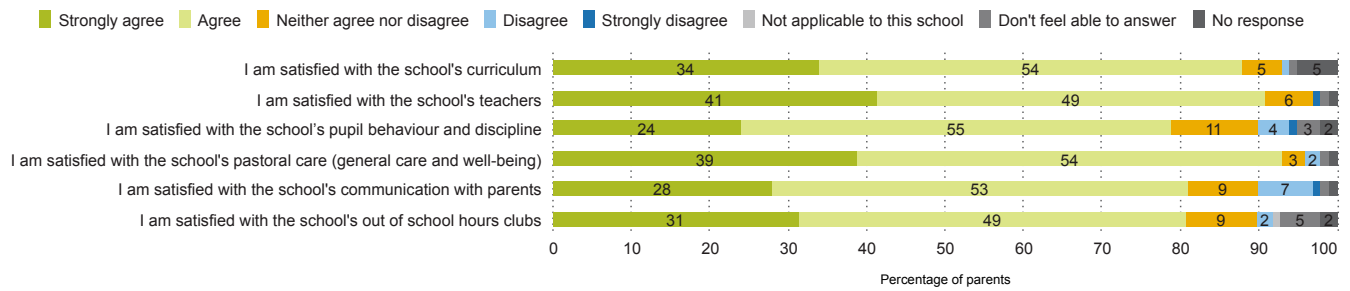

## Key Findings 3 of 5 - Your school versus national overview chart

The chart below is sorted in descending order and shows the extent to which responses from parents at your school are better or worse than responses from parents in all schools. These are displayed in terms of t-values(1) so that roughly speaking any values above +2 indicate that responses are significantly better in your school and any values below -2 indicate that responses are significantly worse.

(1) A t-value is a statistical measure of the difference between two quantities. For the purposes of this chart they are truncated to be between -9 and +9.

## Key Findings 4 of 5 - Stacked bar chart of your school's responses

## Key Findings 5 of 5 - Stacked bar chart of your school's responses continued
